*Department of Health and Family Services*  
**2005-2007 Biennial Budget Statutory Language Request**  
September 22, 2004

## Amend s. 46.48 Grants for Community Programs

### Current Language

s. 46.48 Grants for Community Programs.

(1) General. From the appropriation under s. 20.435(7)(bc), the department shall distribute grants for community programs as provided in this section.

### Proposed Change

Amend s. 46.48 to add two new programs. The first is titled "Mental Health Treatment and Services" that allows the department to distribute funds in each fiscal year to counties for the purpose of providing mental health and substance abuse assessments and treatment to families receiving child protective services. The second program to be added is called the "Female Offender Re-Integration Program."

### Effect of the Change

#### Mental Health Treatment and Services

Wisconsin will develop a plan to have a system in place to assure the well-being of children, including assessing the mental health needs of children.

#### Female Offender Re-Integration Program

This program provides assessment and treatment services to women being released from prison and their children with the goal of safely reuniting children with their mothers with the end result of reducing recidivism and ending the cycle of intergenerational incarceration.

### Rationale for the Change

#### Mental Health Treatment and Services

As a result of the recent federal Child and Family Services Review (CFSR) of the Wisconsin Child Welfare system, federal reviewers found that Wisconsin's efforts were not sufficient to address the mental health needs of children, there was a lack of consistency in providing mental health assessment services, and there was an insufficient number of mental health providers to meet the needs of children in the child welfare system.

DHFS is in the process of implementing a Program Enhancement Plan (PEP) that identifies a strategy that relates to mental health assessment which would work with children's mental health and tribal child welfare agencies to:

- Develop a statewide policy and child welfare worker support for the screening and assessment of the mental health needs of children who have been abused or neglected.
- Develop a capacity improvement plan for screening, assessment and treatment.

Counties would be selected via a competitive application process to demonstrate a collaborative cross-system effort by mental health, substance abuse, and child welfare agencies. Preference would be given to counties that agree to use the mental health screening and assessment process for all of their on-going child welfare cases, those counties that are interested in working with the state to develop an effective program, and those that would commit to the system's changes and improvements.

The counties would be funded for a maximum of three years with the funds phasing out at the end of the third year. An outcome evaluation would be completed.

Failure to have a plan to bring the state into compliance with the federal criteria would result in significant loss of federal revenue, continued costs and negative effects on children whose well-being is not being addressed.

#### Female Offender Re-Integration Program

The target population of this program is women with children who have committed non-violent crimes and who will be released in southeastern Wisconsin. The program will provide assessment and treatment for women and their children up to six months prior to the mother's release from prison and for up to two years after release. All dependent children will be given an at-risk assessment for safety and well-being by a trained professional whether they are in a formal out-of-home placement or an informal custodial placement. After they are assessed for risk factors and necessary interventions are determined, the children will receive comprehensive support services to assist in keeping them safe within their homes, and facilitating the acquisition of parental post-incarceration resiliency factors, including mental health and permanency services. The program will begin while offenders are still incarcerated and provide emphasis on intensive preparation, or reach-in services, for reentering the community. The program will have a strong screening component and comprehensive assessments in educational, vocational, child protective capacity, medical and clinical areas.

To Dennis Rhodes and Donna Dunkel:

Please review this bill carefully; the request was vague. For s. 46.48 (10m), Gordon Malaise thought that the request was for collaboration among public, not private, agencies. Is that correct? For s. 46.48 (11m), Cindy Daggett indicated that the requirement that the target population be women prisoners who are released only in southeastern Wisconsin should be eliminated.

Donna Dunkel supplied me with the intended award amounts for each program.

Debora,

A few comments from HFS on Grants for Community Programs. It appears they want to delete any reference to developmental disabilities in the analysis and add 'child welfare'. Also, the GPR amounts need to be changed.

What do you think?

Thanks,

Thank you for allowing the Department to comment on this statutory language change request.

We have some comments on the Analysis by the Legislative Reference Bureau. I realize this is not part of the statutory change, but we just want to clarify that these changes affect mental illness and substance abuse services but not the DD population.

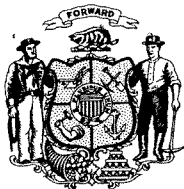

The title "Mental Illness and Development Disabilities" should be "Mental Illness and Substance Abuse Services" [The DD population is not affected by the proposed changes. If they are, that is not our intent.]

Please change 1. as follows: "To counties, for promotion of collaboration among county departments of human services and child welfare, social services and Chapter 51.42 programs and tribal agencies, for the mental health and substance abuse screening, . . . ."

In the language, we think 46.48(11m)(c) is unnecessary because the Department must follow purchasing statutes set forth in another part of the statutes.

The GPR amounts in 46.48(11m)(b) should be \$139,100 in FY06 and \$140,000 in FY07 for a reduction over the biennium of \$4,700. [I will write up a technical correction for this change.]

Joyce Allen at DHFS has a number of requests regarding the MH and AODA draft and one request on the Female Offender portion.

On the child welfare piece the concern I noticed myself is that we need language about services for PARENTS as well as children. Also, we need to exclude Milwaukee County as a potential pilot site.

Conversely, on the Female Offender piece we need to make it exclusive to offenders returning to Milwaukee County.

I've attached their comments. Please let me know if you see problems with their changes.

Thanks,

Dennis

Dennis,

Could you please have the LRB drafter review the references to make sure that we are targetting all counties with the exception of Milwaukee County. The pilot program at this time is targeting 2-3 small counties with the possibility of going statewide in the future (other than in Milwaukee County).

Debora,

Some late breaking changes on this one. The Gov decided he wanted to fund the mental health and substance abuse program with PR-0 from a newly created surcharge that is tied to 20.435 (6)(gb) Alcohol and drug abuse initiatives. I attached that draft.

The question, I think, is do we still need the Mental Health and Substance Abuse services for Children and their Parents portion of the Grants and Community Programs draft? If not, fine. If we do, where do we put the language?

Also, if we do need to keep the community programs draft, DHFS would like to strike out the reference to 51.347 Developmental disabilities services.

Thanks,

Dennis

I am easily confused, no fault of yours.. The title of 46.513 is perfect, but its future is uncertain. It might be repealed as part of a sales tax streamlining initiative.

46.481 appears to be the most likely candidate.

Dennis, I was referring to ss. 46.481 and 46.583 (not the appropriations that fund them) as programs which might be a "home" for the provisions you are concerned with. I'm sorry if I was confusing.

We looked at s. 20.435 (3) (bc) and s.20.435 (bm) are both GPR appropriations. That's why I thought we needed a new apha as opposed to amending an existing appropriation. 20.435(bm) also may get eliminated.

Does that leave us a square one?

I don't deal in this area very much, but there are grants for children's community programs under s. 46.481 (all from the appropriation under s. 20.435 (3) (bc)), and there are grants for services for children and families under s. 46.513--perhaps the latter would be more appropriate?

Cathlene,

It turns out 20.435 (6) (gb) *Alcohol and drug abuse initiatives* will not work for the DHFS portion of the surcharge. It's a state operations appropriation and we need to get this funding into an aids appropriation.

Can you create a new alpha in DHFS program 3 titled "Child abuse prevention and child mental health surcharge" that will reference the Collaboration and Intervention of Mental Health and Substance Abuse Services for Children and their Parents program that Debora has created in LRB-0349 --the Grants for Community Programs draft?

Debora, can you suggest a home for the Collaboration and Intervention of Mental Health and Substance Abuse Services for Children and their Parents program that ties it more to child welfare and kids in DHFS DCFS rather than linking it to DHFS DDES?

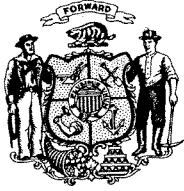

Thanks. I apologize if this is thoroughly confusing.

Dennis

PS:

DHFS also suggests the following addition to the surcharge draft with language borrowed from Debora's Community Programs draft.

s. 973.044 (3) The clerk shall record the child abuse prevention and child mental health surcharge. For each misdemeanor offense or count and for each felony offense or count, the secretary of administration shall credit \$6 into the appropriation account under s. 20.433(1)(h) and shall credit \$14 to the appropriation account under s. 20.435(3)(???). All monies collected by s. 20.435(3)(???) shall be used to award not more than \$57,500 in FY06 and not more than \$229,800 in FY07 as grants for up to 3 years to counties with populations of less than 500,000 and to tribal governing bodies to demonstrate collaboration between a county department under s. 46.23 and a tribal agency in a county or among county departments under ss. 46.22, 51.42, and tribal agencies in a county for intervention for the mental health and substance screening, assessment and treatment of children who have been abused or neglected and their parents for whom the county departments and tribal agencies determine there is a need to provide services.

*Analysis by the Legislative Reference Bureau*

**HEALTH AND HUMAN SERVICES**

**MENTAL ILLNESS AND DEVELOPMENTAL DISABILITIES**

This bill requires DHFS to award general purpose revenues in fiscal years 2005-06 and 2006-07 as grants for community programs, to organizations or groups of organizations, to provide screening, assessment, and treatment for female prisoners and offenders from Milwaukee County who have committed nonviolent crimes, to assist in community reintegration, and to provide at-risk assessments and support services for the dependent children of the prisoners and offenders.

The bill also requires DHFS, from program revenue received from the child abuse prevention and child mental health surcharge on misdemeanors and felonies, to award grants to counties with populations of less than 500,000 and to tribal governing bodies in the counties. The grants are for promotion of collaboration between county departments of human services and tribes among county departments of social services, community programs, and tribal agencies, for intervention for the mental health and substance abuse screening, assessment, and treatment of abused and neglected children and their parents for whom the county departments or tribal agencies determine there is a need for services.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
